Playing America's Game: Baseball, Latinos, And The Color Line (American Crossroads)

Synopsis

Although largely ignored by historians of both baseball in general and the Negro leagues in particular, Latinos have been a significant presence in organized baseball from the beginning. In this benchmark study on Latinos and professional baseball from the 1880s to the present, Adrian Burgos tells a compelling story of the men who negotiated the color line at every turn—passing as “Spanish” in the major leagues or seeking respect and acceptance in the Negro leagues. Burgos draws on archival materials from the U.S., Cuba, and Puerto Rico, as well as Spanish- and English-language publications and interviews with Negro league and major league players. He demonstrates how the manipulation of racial distinctions that allowed management to recruit and sign Latino players provided a template for Brooklyn Dodgers™ general manager Branch Rickey when he initiated the dismantling of the color line by signing Jackie Robinson in 1947. Burgos’s extensive examination of Latino participation before and after Robinson’s debut documents the ways in which inclusion did not signify equality and shows how notions of racialized difference have persisted for darker-skinned Latinos like Orestes (“Minnie”) Miñoso, Roberto Clemente, and Sammy Sosa.

It is the most comprehensive and nuanced treatment of Latinos and professional baseball."#151;Vicki L.Ruiz, author of From Out of the Shadows: Mexican Women in Twentieth-Century America

GREAT LITTLE BOOK FULL OF UNKNOWN OR PREVIOUSLY LITTLE KNOWN FACTS. I WOULD RECOMMEND IT TO ANY LATINO WHO WANTS TO KNOW SOME OF THE HISTORY BEHIND THE STRUGGLE FOR LATIN BALL PLAYERS OF THAT ERA.

Great books for baseball fans like this one are hard to find in most bookstores. I purchased this book for a teenager interested in baseball history and he absolutely loved it!

I bought this book for my ethnicity in baseball class, and it was a really good book. I liked it a lot.

This gives some interesting history but the author is not a writer! He presents a piece of information then drones on and on and repeats himself for 10 pages in different ways then repeats this writing

style for the next piece of information. I had to read this for class, but couldn't even finish it, it is so dry and boring! Avoid picking this book for a book report. It gets one star because it was easy to get. Although it is far too expensive.
