Customer Reviews

Donald J. Sobol was the author of the highly acclaimed Encyclopedia Brown series and many other books. His awards include a special Edgar Award from the Mystery Writers of America for his contribution to mystery writing in the United States, and the Pacific Northwest Library Association Young Readers Choice Award for Encyclopedia Brown Keeps the Peace.

I used a previous edition when I was teaching to use up the last few minutes of class time. This time I purchased the book to read to my grandson when FaceTiming/Skyping. It is a short story that requires him to listen for the clues and solve the mystery.

This is an old and rare book. I went to an auction and this sold for \$28.50! I got mine for like \$5. They are fun but most of the mysteries have to do with murder.

I enjoy reading these with my kids (9 and 12 yrs old) but they have not been able to solve any of the first 10 stories. Maybe when they are a bit older they will have better luck. I would say high school

would be a more appropriate time. But the book itself is great.

My 4th graders loved these 2-minute mysteries! We enjoyed listening to the stories and figuring out the endings. What a wonderful way for them to practice higher-level thinking skills!

Still looking for and comparing all mystery books to an old book I read to my 4th-5th grade students- a book of mysteries that was a perfect level for them to understand and solve while challenging and stretching their minds... While this is a good book, it is not quite as good as that oldie but goodie...

It's good, but getting dated. As others have posted, a few answers cannot be deduced, but instead depend on the assumptions of 1970s middle class culture. The stories are a bit more grown up, but not too much. My nine year old usually gets the Encyclopedia Brown stories but struggles with these, even when the answer is based on facts and not dated assumptions.

This book has become a family reunion tradition. We sit around a campfire and dad reads the stories and we have fun trying to figure the mystery out. We usually end up laughing at the ideas that are thrown around. Great way to help young children learn comprehension, riddles, and puzzling clues together.

I remember reading these books as a child and it was just as fun and entertaining as I remember!
