When Your Child Is Being Bullied: Real Solutions For Parents, Educators & Other Professionals

Synopsis

Why this book and why now? Because children deserve solutions and deserve to be protected! Introducing the first book of its kind in the bullying book category: a "how-to-stop-it-and-get-beyond-it guide" for those who are experiencing the humiliation, isolation and despair brought on by bullying. *When Your Child Is Being Bullied: Real Solutions For Parents, Educators & Other Professionals*, is a step-by-step guide written by two parents who have lived through the process. This book uses a blend of relevant stories, lessons learned, research, and clearly laid out steps to help identify, understand, solve the problem, and get families back on track.

Customer Reviews

I just finished "When Your Child is Bullied," and it's the best resource I've read to date on the subject. I began reading the bullying literature while writing my middle-grade, bully-drama novel "A Warrior's Soul," and I was surprised at how little was available. What was available was extraordinarily simplistic and shallow. This book takes a no holds barred approach, and it's emphasis on early, direct, and forceful intervention *with consequences* for the bully makes it a

must read. My only quibble-and it is a quibble-is that they don't address self-defense for our kids. So much bullying happens outside the view of adults and teachers. To their credit, they recognize, briefly and with too much political correctness in my view, that kids sometimes have no choice but to fight back...and it's effective. Still, their emphasis on adult intervention and holding adults accountable for bad behavior is long overdue and a refreshing perspective in this important debate. Well done. Highly recommended by this parent and author.

Finally a book that gets to the point and says it like it is. Bullying is a problem in every school and at every level of our society and these moms discussed it openly from the heart. Yes, kids will be kids but bullies will be bullies!! There is a difference. My daughter has been being bullied all through her grade school years. I gave a copy to her teacher and I am tempted to leave one on the doorstep of the kid who has been bullying her. Parents need to face the facts on both ends. Even the parents of the kids who are doing the bullying. There is a solution! Hats off to these moms for having the courage to write this book!

These ladies present a detailed blue print that should be mandatory in every elementary, junior high and high school in America. It is well researched and inspired by personal circumstances that led to action. Buy it and read it!

Every Administrator, Principal, teacher and parent should own a copy. The problem of bullying affects all children in either direct or incidental ways. This book is a well thought out primer on real life solutions. Direct and easy to read. A crucial resource.

My granddaughter is being bullied at school and she is special education student. This is very helpful to help her cope.

Great resource for parents.

As a former school member this is a recommended read for anyone interested in solutions rather than just talking about the problem. Bullying does not discriminate - it is a problem at schools whether they are rural or urban, large or small, wealthy or not. All schools have identified the problem but are at a loss as how to solve the problem. This book provides the roadmap that educators and parents need to get to real solutions not just talk or hype. What a great resource for

parent networks within the school to begin to put an end and help all kids become successful. Let's really talk about "no child left behind" - this is the way to start.

When Your Child Is Being Bullied, by J. E. DiMarco and M. K. Newman, both mothers of bullied children, is aimed primarily at parents and rightly so. If the problem is to be solved, it will have to start in the home with informed parents assuming the major responsibility for their children's behavior. The problem is too massive and complex to be left to schools alone. Readers will identify with Ms. DiMarco and Ms. Newman's personal stories and their frustrating search for solutions. . . . The inability of the administrators at her son's school to solve the problem is a common experience. There is good advice about legal remedies . . . templates which can be downloaded from their website . . . [and] a contract agreement form that can be used as a basis for negotiations between the bully's parents and the bullied child's parents. Overall, this is an excellent book . . . the book does contain sound, practical advice about becoming an advocate in the school system. The authors stress that the real responsibility for eliminating the bullying pestilence rests with parents. Respectful, compassionate children have learned empathy by witnessing it at home and if raised correctly have the self-esteem and confidence to eliminate bullying in their schools by refusing to remain silent bystanders. This book can help conscientious parents empower themselves and their children so that together they can help safeguard the emotional health of all children.--Kathy Hersh
