Customer Reviews

For over 35 years, School Zone has been an innovator in children's educational products.

Great set of flash cards with a large variety of letters and letter combinations. My 5-year-old is struggling with remembering the sounds letters make (even though he knows the letters) but he can sit down with this deck by himself and go through each card on his own by looking at the pictures and knowing what sound the letters are making. It's nice to be able to go through them together or let him occupy himself while learning and he really enjoys getting through them all on his own with minimal help.

I bought a bunch of these cards for my son because he was having a little trouble in school. Having ADHD, it is hard for him to focus on something "boring" for long. These cards have been a lifesaver for both of us. He can focus for way longer than if we were doing it just on paper and we even make it a game at times. These are the ones I bought and have used with great success:-Time and

Money-Phonics Made Easy-Sight Words-Alphabet-Math War

I like these cards, but I wish they had more blending flashcards for my son to practice with. Off the top of my head, I think they come with about 20. I think this is a great way for my son to practice blending, but I think he will memorize these quickly then I'll have to make my own or find something else for him to practice with.

My experience using these cards with little children has been very positive. Before purchasing, I had not fully appreciated how much time and effort on my part would be required to use the cards. I was also surprised how little children enjoy using them and don't get tired of them. Advances made proved that it was an incredibly worthwhile learning tool to use.

My 15 month old God Sun learned his letters and words with these cards, and now he is constantly talking. A great way to give your child or God child the early start to education

These are awesome!

Great for ESL teaching.

This deck includes long and short vowel sounds as well as CH, SH... so on. Its helped me tutor my kindergartners as well as first graders.
