I bought this book (along with Teens Cook) as a gift for my two teenage cousins. Before wrapping the books, though, I spent some time looking through them. If the books had been around when I was a teen, I would have loved to have had them. As it is, I still may buy them for myself! The book is filled with recipes that teens and young adults would actually want to eat, which is better than a lot of standard cookbooks. The pictures are great because they show every recipe. I also enjoyed the casual tone of the book, since it is also written by teens, it is not condescending towards them. I look forward to more cookbooks from these two young women.

Gift for 11 year old grand daughter She loves it!

Purchased this book for my granddaughters 13th birthday. After looking through the book thoroughly, she made the molten lava cakes for her dad for Fathers Day. A huge success! Book is well written and great selection of recipes.

My fourteen year old granddaughter loves to bake. She tried the recipes in her mom's numerous cookbooks, but found many of them challenging. The fact that there are teens in this book who wrote out the steps for baking the recipes is a big PLUS. My granddaughter has already baked five pastries from this cookbook. I think it is excellent for tweens and teens. ENJOY!!

This was a Christmas present for our grandson, who is learning to cook. He loved the book and can't wait to get into the kitchen to try some of the recipes. They sounded great!

This was ordered for my slightly preteen daughter. She absolutely loves it. She's made some wonderful, great tasting desserts for us! We look forward to her using it often.

Very pleased with this cookbook that was a Christmas present for my tween granddaughter. She loved it and can't wait to make some awesome sweets.

My granddaughter loves this book. She has tried several of the recipes and has perfected some. Her strawberries and cream crepes are delicious.
