Customer Reviews

Good informative good recipes I would recommend this book to others in need of recipes ideas to help with inflammation

It's a small book of helpful information.

Terrible recipes - unappealing smoothie combinations and the rest mostly meats, and I'm not a vegetarian. Some good info, but nothing new.

To assert that lupus can be controlled, or even managed, with the simplistic recipes in this text is almost criminal. Granted, a non-inflammatory diet may work wonders, but this book does not go deep enough into the commitment that such a diet, on a daily basis requires. This book hardly offers a solution at all....

The person that put this short booklet together copied the name of the popular book "The Lupus Recovery Diet" by Jill Harrington. There isn't even an author's name. It's just someone trying to trick people into buying this - instead of the book with real information that has helped hundreds of people.
