Numerology: With Tantra, Ayurveda, And Astrology

Synopsis

For the first time, a Tantric scholar and expert in the Hindu traditions of Ayurveda and astrology presents a system of numerology that combines numerical calculations, astrological data, and an analysis of body type. He illustrates the Vedic Square and the visual patterns that can be derived from it, casting a revealing light on the more esoteric interpretations of numbers and their relationship to one another. Recommendations are given regarding strong and weak periods of day or year, favorable colors and precious stones to be worn, and meditations and mantras to be practiced for health and prosperity. Explains how to determine the psychic number, name number, and destiny number; how these numbers relate to each of the nine planets, and how they apply to every aspect of life--including personality, temperament, intelligence, talents, sexuality, spirituality, finances, travel, and health.

Customer Reviews

"Harish Johari served as guide to Richard Alpert (Baba Ram Dass) on his initial excursion into mystic India and continues his vocation of bridging the East/West gap. A true renaissance man, this distinguished North Indian poet, sculptor, and musician holds degrees in philosophy and literature."
(EastWest)

DIVINATION / NUMEROLOGY • A true renaissance man, Harish Johari continues his vocation of bridging the East/West gap. • --EastWest Journal A Tantric scholar and an expert in the Hindu

traditions of Ayurveda and astrology, Harish Johari presents the first system of numerology to combine numerical values, astrological data, and analysis of body type. Using simple calculations, Johari explains how to determine your psychic number (representing self-image), your destiny number (pertaining to karma and how others perceive you), and your name number (signifying social and professional life). He shows how these numbers reveal information about your personality, temperament, intelligence, talents, sexuality, spirituality, finances, and health. A full section is devoted to each number, its attributes, and its corresponding planet, deity, and mantra. Based on your dominant number(s), recommendations are given regarding strong and weak periods of the day or year, favorable colors and precious stones to be worn, and meditations to be practiced for health and prosperity. HARISH JOHARI is the author of Tools for Tantra, Chakras, The Healing Power of Gemstones, and Breath, Mind, and Consciousness. A painter, sculptor, and composer, he also served as guide to Baba Ram Dass during Ram Dassâ™s initial excursion into mystic India.

Buy this book- enough said, but if that didn't get across allow me to tell you why. Numerology with Tantra, Ayurveda, and Astrology delivers a powerful message. Unlike books from Western academics, Johari's work is replete with spiritual significance and it is so simplistically well-written that even the typical uneducated bum babbling on the corner can take something out of this work. Spiritual insights are supposed to be simplistic while bearing profundity. Too many times I have come across books using long words and tawdry sentences to explain simple truths, yet I was relieved to find a book such as this one for such a low price. But, aside from the bargain, it is definitely a great step to make in any and all spiritual endeavors. I searched for God and found only myself; I searched for myself and found only God.~ Rumi Through this book, if read sincerely and devotedly, the reader will find God and himself.

Great read to understand who we are and why we sometimes do the things we do. Very insightful. Love it!

Very good book. As a student of esoteric Numerology I have found a lot of information of the vedic system. I was a little surprised that the number/letter table is not of the Chaldean we are using in the west. (the hebrew/syriac table), but very similar. Aside of this it is a good resource for any Numerologist.

It's just OK...no great shakes...much better numerology books to be found out there on the market. I

found it a bit 'ho-hum' and 'boring' at times...at bit of a sleeper in relevant subject context. See if your local library has a copy before spending your money!

Good

I studied with the author, and over years of counseling and observation with this ancient Numerology system, I find that it definitely operates in the life of most individuals. It is insightful for understanding oneself and others, and helpful to see where one has options as far as behavior goes when awareness is present. Key to using the material is to get the time of birth accurate regarding sunrise.

I liked the combination of astrology, tarot and numerology for a greater in depth analysis view of the subject matter

This is a book that will take a while to understand. I was expecting more on the relationship between Ayurveda and numbers but it is very limited info on that aspect. But overall is good info to have as part of a library of books on similar subject.
