Book by Andrew Mollo

This is a neat little reference book on WWII uniforms, illustrated with hand-tinted contemporary photographs. Unfortunately many of the pictures are not representative of standard issue uniforms! The book typically presents 3 soldiers per page in national groups, chronologically from the invasion of Poland in 1939 to the Japanese surrender in 1945. This is followed by illustrations of a selection of weapons and gear. Irritatingly the descriptions of the illustrations are in a separate index at the end of the book. The illustrations of gear and weapons are somewhat eclectic. Nevertheless this is a valuable reference, especially for a visual artist.

183 pages in small format, 257 clear and detailed illustrations, including full uniforms, helmets, backpacks and other gear, small arms. Covers uniforms of 24 nations and some special campaigns, such as Tunisia, Libya, invasion of Norway, etc. Filmmakers, costume designers, collectors and many others will find the plates and their notes indispensable.
