Whitewater: The World's Wildest Rivers

Synopsis

This visually stunning book portrays the top whitewater paddling destinations in the world. Each river profile includes a description of the region and the rapids, a map of the river, paddling history, and local geography and color. The photography, by some of the finest outdoor photographers in the world today, is as exciting as the destinations, and will amaze even the most experienced river runners.

Customer Reviews

The World's Wildest Rivers: White Water captures in magnificent photographs the story of these great rivers, and presents a vivid account of those whitewater pioneers who have dared tackle unpredictable rapids, cataracts and waterfalls. Aimed not only at those who like to test the boundaries of whitewater themselves and others who raft simply for relaxation, this book also allows readers to enjoy the exhilaration and excitement of white water from the comfort of their armchair.

Graeme Addison (father of world-renown paddler Corran Addison) pioneered whitewater rafting in South Africa, opening the first river tourism company in the country. A founding member of the Southern African Rivers Association and former head of its instructor council, he currently runs the tourism portfolio for the International Rafting Federation. He lives in Pretoria, South Africa.

The first of it's kind, great histories about the first descents.

This book was recommended by a friend of the author's who has also spent a great deal of time running first-desents of rivers world-wide. Excellent book -- you oughta buy it ...

This fascinating book tells the story of the rivers and the pioneers who opened them up for rafting. The rivers are discussed by continent, as follows: North America deals with rivers in Canada, Alaska, Idaho, California, Tennessee and Virginia. Central and South America includes Costa Rica, Brazil, Venezuela, Peru and Chile. The chapter Europe, Asia Minor and the Middle East looks at Iceland, Norway, Austria, Switzerland, Slovenia, Croatia, Jordan, Israel and Iran. Then follows Asia, Siberia, China and Kyrgyzstan. Himalaya deals with rivers in Nepal, Pakistan, India and Tibet, whilst The East, Australia and New Zealand includes the rivers of Sumatra, Borneo and Papua New Guinea. Finally, the chapter Africa discusses the rivers of Burundi, Congo, Zimbabwe and South Africa. The book includes sections on the safety of rivers, the grading of rapids and the development of whitewater boats and boating from 1842 to 2000. There is a large map of the world indicating all the rivers discussed, small maps for every section plus impressive full colour photographs. The book concludes with a glossary, bibliography and index.
