Dragons Love Tacos

Synopsis

A New York Times bestselling phenomenon, this deliciously funny read-aloud from the creators of Robo-Sauce and Secret Pizza Party will make you laugh until spicy salsa comes out of your nose. Dragons love tacos. They love chicken tacos, beef tacos, great big tacos, and teeny tiny tacos. So if you want to lure a bunch of dragons to your party, you should definitely serve tacos. Buckets and buckets of tacos. Unfortunately, where there are tacos, there is also salsa. And if a dragon accidentally eats spicy salsa . . . oh, boy. You're in red-hot trouble. The award-winning team of Adam Rubin and Daniel Salmieri has created an unforgettable tale of new friends and the perfect snack.

Grade Level: Preschool - 2

Customer Reviews

"Rubin and Salmieri, the team behind the equally hilarious "Those Darn Squirrels!," bring their kooky sensibility to this irresistible story about what can go wrong at a taco party for dragons... The dragons may screw up the party, but this book gets everything right." -The New York Times
New York Times bestseller
Summer 2012 Kids' Indie Next List
New York Times
Notable Book*
"Off-kilter fun for those who like their picture books (and salsa) zesty and fresh." -Publishers Weekly, starred review
"Dragons Love Tacos is a heaping helping of silly. Little kids will relate to the anti-spicy bias and chuckle over Salmieri's watercolor and gouache cartoon illustrations showing

literally boatloads of tacos and all sizes of dragons enjoying their favorite food at pool parties, costume parties and, well, taco parties." "San Francisco Chronicle" "The perfect book for kids who love dragons and mild tacos." "Kirkus Reviews" "The watercolor, gouache, and colored pencil cartoon illustrations are the real stars here. Regardless of, or perhaps because of, the absurdity of the story, this tale should be a big hit with anyone with an affinity for dragons." "School Library Journal

Adam Rubin and Daniel Salmieri are the creators of the New York Times bestselling *Robo-Sauce* and *Secret Pizza Party*. Adam lives in New York, New York, and Daniel lives in Brooklyn, New York.

I don't write many reviews because rarely does a product move me to the point of promoting it, but this book is the exception. Having read the authors previous book, "Those Darned Squirrels", I immediately noticed when *Dragons Love Tacos* came to my local bookstore. Always wanting to save a buck I opted to purchase on . The author has come a long way since writing about rodents. The images and story are HILARIOUS. This book instantly became my nephew's favorite (as well as my 2 friends kids, whom I also bought it for). If you're looking for a very serious book that will educate your children about the socioeconomic policies of Asia, look elsewhere. If you're looking for a hysterically funny book about Dragons eating Tacos, I GUARANTEE you won't find a better option. HIGHLY RECOMMENDED.

This book is not Chaucer (doesn't try to be, and that's fine!) We'd selected several little books for our grandchildren this Christmas, and while most of them contained more substantive messages, you know what they say about all work and no play! We chose this one for our 2+ year old grandson, a silly book with fun illustrations that we know he and his older brothers will all really get a kick out of! Most of the vocabulary is a bit over his head at this stage, but that's how they learn, and it sets up the perfect scenario for one of his older (4-1/2 & 8-1/2) brothers to enjoy reading it to him and maybe provide Mommy with a little break. Well, of COURSE we all know that dragons love tacos - who doesn't love tacos? But what we may not know until reading this story is that dragons + tacos + spicy salsa equals dragons with attitude! One of the things I like is that the dragons I knew as a child (other than Puff!) were all very scary and the creatures of nightmares... but these are the funniest, friendliest looking dragons you could imagine, all of whom just LOVE tacos and just LOVE parties of any kind - just combine the two (into a taco party), and you're looking at some super

happy dragons! Except... including any spicy salsa is a no-no, since we're all aware of what dragons are known for, and slipping - even accidentally - any spicy salsa into the mix would be like putting a match to a... uh-oh! And how could a book coming from this combo of author/illustrator be anything other than fun? I had a good chuckle over the "recipe" included on the inside of the jacket for "making" this book... (author) "Adam Rubin: 8 oz. magic tricks, 4 oz. knock-knock jokes, 17 words per minute... In a small apartment, stir ingredients and store in New York City", along with (illustrator) "Daniel Salmieri: 4 tbsp. watercolor paint, 2 cups pencils (sharpened), 6 corn tortillas... Preheat Brooklyn, New York, to 75 degrees and bake for 27 years", then "Serve both dishes together for a delightful smorgasbord a la Robo-Sauce, Secret Pizza Party, and Those Darn Squirrels." VERY clever!

This book is the best! Loved by both kids and adults. Hilarious.

a new classic

a new classic.

Hilarious. Good for a gift.

Clever book and perfect for a grandson under 5.

My kids (10, 7, 3) have enjoyed this story; so I bought it as a birthday gift for a special needs friend. I understand it has become one of his favorites, requested over and over. And his mom is thrilled because with the read along CD, he can listen to it on his own without her assistance -- and no screen time involved! A fun book!
