Lonely Planet Ethiopia & Eritrea (Country Guide)

Synopsis

Awe-inspiring, beautiful and sometimes heartbreaking, Ethiopia and Eritrea are not like anywhere you've been before. A realm of rock-hewn churches, buzzing bazaars and untouched wilderness, the Horn of Africa is truly unique. See the mist rising off the mountains, hear the gurgle of children's laughter in the narrow streets of Harar, or catch a glimpse of a wolf prowling under the thorn trees. **The Best Coverage** - the only guidebook to comprehensively cover Ethiopia and Eritrea and explain how to cross between them via Djibouti. **Read Up** - all the details you need to travel the Historical Circuit, including ancient cities in northern Ethiopia. **Bring Out The Adventurer** - climb a rope, use toeholds or walk a ledge to reach churches and hill-top monasteries. **Eat And Drink** - know your injera from your kitfo, and why the third cup of coffee is the most important. **Travel Safely**- we keep you worded up on the scams, health issues and no-go areas.

Book Information

Series: Country Guide

Paperback: 404 pages

Publisher: Lonely Planet; 3 edition (November 1, 2006)

Language: English

ISBN-10: 1741044367

'â these smart and exhaustively researched guides have become the gold standard for serious, independent travelers.' --San Francisco Chronicle

Who We Are At Lonely Planet, we see our job as inspiring and enabling travellers to connect with the world for their own benefit and for the benefit of the world at large. What We Do * We offer travellers the world's richest travel advice, informed by the collective wisdom of over 350 Lonely Planet authors living in 37 countries and fluent in 70 languages. * We are relentless in finding the

special, the unique and the different for travellers wherever they are. * When we update our guidebooks, we check every listing, in person, every time. * We always offer the trusted filter for those who are curious, open minded and independent. * We challenge our growing community of travellers; leading debate and discussion about travel and the world. * We tell it like it is without fear or favor in service of the travellers; not clouded by any other motive. What We Believe We believe that travel leads to a deeper cultural understanding and compassion and therefore a better world.

I bought this as a Peace Corps Volunteer before going to Ethiopia in 2012. It was cool to look at the places nearby that I could visit, and it did find some use when my Dad came to visit me and we were looking for good hotels in Arba Minch. But to be honest, my best resource for travel and hotel recommendations was my fellow Peace Corps Volunteers who lived in the area. If you're a PCV about to leave for Ethiopia, I would suggest investing in the phrase book and leaving this book at home. But if you're a tourist heading to Ethiopia and don't know anyone who already lives there, I would definitely pick up this book. It all depends on what you're using it for.

This book was disappointing. Very very few pictures, outdated visa requirements about yellow fever vaccinations (which I've read elsewhere have never been a requirement), not much basic travel information (like country weather, dress, currency) which is usually covered well in Lonely Planet books, like LP China, for example. The writers are clearly European, but their strong style leaves me wondering what nuances I may not be picking up on as an American. These omissions make me less confident about the other facts and recommendations given in the book. None of the writers are female, which also makes me wonder if the places they felt safe would be comfortable to a female traveler. All in all, this book was not as thorough and well researched as other Lonely Planet books I have read and used.

Great guidebook. I really like that it includes Djibouti and Somaliland.

A wealth of information for my upcoming trip to Ethiopia. However, the font/type is so small that it is impossible to read without a magnifying glass. I always buy Lonely Planet guide books for everywhere I travel, and none of them have this problem. Perhaps the problem arose because they tried to put information about two countries into one book.

Lonely planet always makes the mark!!

As advertised

Excellent purchase.

Planning a trip to Ethiopia is hard enough, as there is very little available online of in depth information. But, Lonely Planet has answered most of my questions, as usual, which always makes my trips much easier to plan. As a single female traveller, I get upset when there isn't a LP guide for a certain country and their Ethiopia/Eritrea book does it all!
