Aquaculture Genome Technologies

Synopsis

Genomics is a rapidly growing scientific field with applications ranging from improved disease resistance to increased rate of growth. *Aquaculture Genome Technologies* comprehensively covers the field of genomics and its applications to the aquaculture industry. This volume looks to bridge the gap between a basic understanding of genomic technology to its practical use in the aquaculture industry.

Book Information

Hardcover: 584 pages

Publisher: Wiley-Blackwell; 1 edition (August 28, 2007)

Language: English

ISBN-10: 0813802032

ISBN-13: 978-0813802039

Product Dimensions: 7.4 x 1.2 x 10.3 inches

Shipping Weight: 3.2 pounds (View shipping rates and policies)

Best Sellers Rank: #676,534 in Books (See Top 100 in Books) #118 in [Books > Science & Math > Nature & Ecology > Natural Resources > Fisheries & Aquaculture](#) #950 in [Books > Medical Books > Basic Sciences > Genetics](#) #999 in [Books > Science & Math > Nature & Ecology > Oceans & Seas](#)

Customer Reviews

"A good and comprehensive overview of the principles of genomic tools â [It] will be an important reference for quite some time, and I welcome its arrival." (Aquaculture International, August 2008)
â *Aquaculture Genome Technologies* is the quintessential What, When, Why and How-to book for aquatic genome researchâ an important addition to any science classroom, laboratory or office.â
(Aquatic Association of Canada Newsletter) "This most impressive text tells very clearly and comprehensively how and why." (Ausmarine)

"Overall, *Aquaculture Genome Technologies* gives a good and comprehensive overview of the principles of genomic tools covering both classical and modern methods, combining clarity and depth besides some space limitations in certain chapters. The book will be of value to postgraduate students, researchers and academics within the field of aquaculture and agriculture, molecular biology and animal breeding... I am convinced that *Aquaculture genome technologies* will be an

important reference for quite some time and I welcome its arrival." â “Stefano Peruzzi, University of Tromso
