Lippincott's Manual Of Psychiatric Nursing Care Plans (Book With CD-ROM For Windows & Macintosh)

Synopsis

This supplemental text/reference of 55 nursing care plans addresses the most commonly encountered behaviours and behaviour complexes in psychiatric and mental health nursing.The thoroughly updated Sixth Edition responds to current community based care settings, across the lifespan care, cultural considerations, violence in the community and also community grieving. This edition presents a stronger focus on interdisciplinary care; community resources available to clients and their family/support groups; Web-based resources; communication content; and a sample assessment tool. DSM-IV terminology/organization and NANDA diagnoses are used. The book also includes a free disk with printable nursing care plans

Customer Reviews

a farily useful refresher manual for psychiatric nursing care.It would be more comprhensive if it also include aspects of care which, although physical complenented the displayed mental health symptoms .e.g DEMNTIA PT = HEARING IMPEDIAMENT. what are the steps TO FOLLOW IN THE CARE PLAN FOR THE INTERVENTION . SIMPLE EXAMPLE BUT IF YOU DO NOT KNOWN THE STEPS THEN THIS BOOK IS NOT HELPFUL

Used a couple of times. Could have done without in nursing school though because my psych clinical rotation was only 60 hours and I didn't write many clinical care plans. ;b

Purchased this publication on the advice of my wife who is a Professor within a Psychiatric Nursing Program for my Forensic In-patient unit. My staff, made up of young and relatively inexperienced nurses have found this book extremely helpful. It is easy to read and its application into the program has been seamless and user friendly. Highly recommended.

This is an excellent resource for psych nurses and psych nursing students.Guy C. Lamunyon MSN, RN, CASAdjunct FacultyNorthern Arizona University

Look new

This careplan book saved my grade in psych for nurses. Instead of it taking 5-6 hrs to write a careplan, & citing lots of sources, I only needed one. LOVE it.

I am very pleased with this book. it is extremely helpful for mental health care plans and fellow students agree!!

The book was in perfect condition and a disc came other it which made it an absolute treasure! Very excited! Thanks
