A Place Called Charlie Tango

Synopsis

A ruthless killer. A bloody and bitter conflict Deep in the arid heart of Zimbabwe-Rhodesia's terrorist-infested bushveld, Chitungwe Base Camp lay dust-choked and desolate in the blinding white glare of the African midday sun. An exhausted silence hung over everything. Chalmers suddenly felt very alone and ill-prepared for what he feared might lie ahead. Little could he imagine then just what horrors were about to unfold in the weeks that followed as the chilling cat-and-mouse conflict escalated with the coming of the rains. What happens when Chalmers and his mutinous band of unseasoned soldiers finally come face-to-face with their ruthless enemy? Can they take on the impossible and still hope to survive? Their gut-wrenching struggle to the death forms the nail-biting and dramatic climax to this extraordinarily brutal yet ultimately heart-warming real-life drama. The Rhodesian Bush War and the triumph of evil Set in the late 1970s during the long drawn-out years of the Bush War, *A Place Called Charlie Tango* paints an unforgettable picture of the unrelenting horror and constant danger that all those who lived here faced each and every day while defending what the rest of the world had abandoned. Yet through all the bloodshed, fear and intrigue, the elemental and starkly beautiful backdrop of the vast African landscape itself shines vividly throughout this compelling autobiographical novel by Charles Beaumont. - A wonderful and well written book. - Full of human touches, I found it hard to put down and finished with a sigh of regret. - An excellent description of what it was really like. - A great 'historical novel'. - Successfully captures the beauty, the brutality and the paradoxes of that time and place. *** Further book details on *A Place Called Charlie Tango* are currently featured on the Publisher's website - www.publishingdirect.co.nz

Customer Reviews

In the closing years of Rhodesia's struggle for independence white citizens under the age of 59 were subject to "call-up" for up to 6 months per year. This book is a great "historical novel" of a 47 year old with virtually no military training who was called up and sent to a lonely outpost in an area where the terrorists pretty much had free rein. In the end his success made no difference to the outcome, but it tells a cautionary tale of what "winning hearts and minds" is all about.

Author gives a blow-by-blow of his experiences as a District Commissioner right in the thick of the Rhodesian Bush War. This ain't pretty, but an excellent description of what it was really like, the only European in the TTL lands leading reluctant Blacks. Heat, always the heat, relentless like the story and the officers determination to get rid of the bad guys and look after the good. Enjoyed this one.

Well written, with a historically accurate and believable story. A very good novel about a time, place, and conflict that seems to have been overlooked and/or forgotten.

Very good story , Well written with a good believable story line
