"Finding myself in front of groups large and small, the skills detailed in this book are an invaluable source of presentation strategies for me. Whether you are a beginner or a seasoned veteran, this book provides useful descriptions and insights that help make every presentation session successful." -- Grant P. Wiggins, President"Through the metaphor of dance, the authors weave a path that provides newbies a blueprint and at the same time makes veterans consciously competent both for themselves and as mentors for others. With this book, Zoller and Landry have both extended my work and fulfilled my dream of having an in-depth layout of the nonverbals of presentation skills. As a colleague, the ultimate compliments I can give are: 'I wish I had written it,'

and 'Hey, now I don't have to write it-I can use their book!" -- Michael Grinder, National Director and Educational Consultant"I once had an art history teacher who made his lectures come alive with hand gestures, fluctuations in voice, and a calm authority. All of the students loved the class, learned a lot, and developed an appreciation for art history. I now know many of the things that made his lectures so educational. In The Choreography of Presenting, Kendall Zoller and Claudette Landry have captured many of the abilities and skills demonstrated by this great teacher. Whether you are presenting to hundreds at a conference, dozens at a workshop, several at a faculty meeting, or a single colleague, applying the lessons of this book will improve your presentation. The abilities and skills of effective presenting are described in understandable and practical terms and activities. Regardless of your current ability, this book will help you become better."--Rodger W. Bybee, Executive Director, Retired (09/08/2009)"This amazing book artfully captures the complex craft of presenting to diverse audiences. Whether you are a novice or an experienced presenter, this book will transform your performance and lead you toward becoming a virtuoso! I highly recommend it to anyone seeking to hone their presentation skills."--Page Keeley, Past President, National Science Teachers Association (09/10/2009)"Zoller and Landry give the reader several examples from their own presenting experiences as well as tables and figures to supplement their lessons. I found myself in many of the suggestions and will reference this book when practicing for my next presentation."--Lynn R. Have you ever experienced a masterful presentation, or admired how someone effectively managed a potentially hostile or disinterested audience... then wondered how they did it? Zoller & Landry give their readers insightful and practical information to give you that same edge when presenting. Subtle awareness that gives you that extra intangible to make your audience sit up and take notice of what you present. From pure presentation to facilitation and moderation, Zoller & Landry peel back the curtain to provide information that will transform your experience...and theirs. A must read for anyone who wants to present with intention, and be more effective in the delivery.

I LOVE this book! It has great tips and is easy to follow! Dr. Zoller also has some great videos on voutube that really make the content of the book come to life.

On time and as described.

All good!

Great book

I learned many new ideas for quality presentations. I especially enjoyed the tips on recovering when things went wrong and the tips on erasing a poor memory simply by changing positions.

The Choreography of Presenting: The 7 Essential Abilities of Effective Presenters provides educators with a fine survey of body language and physical behavior that lends credibility to audience presentations and learning. From common presentation challenges and conflicts to practical exercises, this is a fine guide that will easily cross over to business and general libraries, too!

This book gives a series of simple yet highly effective aspects required for leading a successful meeting or presentation. The concepts when practiced and put together create a much more productive and receptive environment for meetings and presentations. Some of the ideas may seem difficult to practice, like controlled breathing, but if one focuses on each element and practices it, they will become much more credible presenters.
