Customer Reviews

Nice and easy to follow instructions.

I love the expressions and hope to learn how to draw them myself. Love to draw and I am always looking for new things to try.

It's good as a basic guide. However, one small image of drawing a face per page is too much. If they're going to show how to it, they should add a bit more explanation right beside the drawing

sample image. You can find all the same examples anywhere for free so don't waste your money on this one.

This book is so cute! I bought it today for a great price and I am so glad I found it. It is a Very informative and detailed book. step by step. suitable even for beginners with minimum drawing skills. It's Manga faces only, So I hope I will know how to draw their bodies. LOL.. I'll try.. I have some drawing skills.. :) Anyway, a Great book for a Great price. -Get it!..

My 13 year old is suddenly intrigued with drawing manga/anime, so it was a no brainer for me as a mother to buy her this 99 cent book for her Kindle Fire. Thirty seconds after it popped up on her Kindle, she had her sketchpad out and was already practicing some new techniques found in the book.

Great deal for drawing and on the kindle. A must for any artist what wants to learn how to draw!

This book really helps and comes out perfectly every time, If you are really believing in yourself and not having a bad attitude. If you say that you think it will come out great, it will. But, if you say it will be sucky, than it will.

Very helpful book. Loved it.
