Customer Reviews

SAVE yourself thousands of dollars in marital therapy, or even millions of dollars from a divorce proceeding. This book SHOULD BE REQUIRED READING for any and all couples looking to get married, live together and those already married as well. Been married for 21 years, mostly happy, sometimes unhappy. 12 years ago, I came across this gem of a book, and it was the only thing I

had to read on an 18-hour flight... because of it, I can now say I have been extremely happily married for the past 12 years. If you are young or old, this book is a must read. For as long as you heed its advice, it will help you pick the right man or the right woman for you to be in a relationship with. I wish I could give it 10 Stars... 5 will have to do.

As a person who has studied the Psycho-Physiological needs of women/men I found that this book is very well written & clearly shows why women/men are so different, yet each complements the other. Too many men try to ignore their masculinity and too many women ignore their feminine attributes.

It's funny, light reading on a serious subject. It's not boring, and is guaranteed to hold your interest for a long time.

This is a great book on relationships! I checked it out from the library and after reading it, decided I need to purchase my own copy. It is still interesting the second time around.

The book was excellent. Witty, informative, covers much more than just what the title implies. This is a good manual for people starting a relationship or wanting their existing relationship to become better. A sense of humor is necessary.

This was a great read for all couples. Found it very fascinating and interesting. Excellent book to read and learn from.

i like it

If you're baffled by the behavior of the opposite sex, I recommend reading this book. It's highly accurate and hysterically funny because it's true!
