## Customer Reviews

Definitely not the first book you want but, like a dictionary, necessary to beginners. This is a great back up for lessons where I needed more information about a part of grammar. Easy to find information needed.

I bought this book to help me teach Spanish to my children whom I homeschool. It is a wonderful addition to their Spanish course work. I love it so much I sent one to my niece who is in college. Great way to learn or refresh Spanish without all the hard work. This book will help kids or adults of all ages. Very straight to the point.

Not what I expected. Small pocket sized grammar book. Not something I would carry around with

me. It does have good information, but not presented in a way that is useful.

Great book, recommended to me by other language learners. A small book that fits in my bag but contains most of what I need to know. The section on the uses of the reflexive pronoun "se" could use improvement, though.

Grandsons loves this and he said it helps in school.

Was looking for a book that reviewed basic Spanish grammar. This book works well but also has the added benefit of being small and therefore very portable. I read it on the go to use it to study while commuting or when I had downtime.

I have been studying spanish for some years off and on, since I left high school. It's a great tool to help me refresh what I already know and teach me the basics on newer topics. it's size is small so I like to carry it to work and look through it on my free time. I also love the examples to aid you in the usage of each topic. I recommend it to anyone that wants a complimentary tool to learning the language and who are at a beginner to intermediate level. Such a great buy for a great price!

Excellent source for info and familiarity.
