Study Guide To Technical Analysis Of The Financial Markets: A Comprehensive Guide To Trading Methods And Applications (New York Institute Of Finance S)

Synopsis

This outstanding reference has already taught thousands of traders the concepts of technical analysis and their application in the futures and stock markets. Covering the latest developments in computer technology, technical tools, and indicators, the second edition features new material on candlestick charting, intermarket relationships, stocks and stock rotations, plus state-of-the-art examples and figures. From how to read charts to understanding indicators and the crucial role technical analysis plays in investing, readers gain a thorough and accessible overview of the field of technical analysis, with a special emphasis on futures markets. Revised and expanded for the demands of today's financial world, this book is essential reading for anyone interested in tracking and analyzing market behavior.

Customer Reviews

John J. Murphy is President of MURPHYMORRIS, Inc., a producer of interactive educational products for technical analysis. A former technical analyst for CNBC and director of Merrill Lynch's Technical Analysis Futures Division, he is the author of *The Visual Investor* and *Intermarket Technical Analysis*.

This is just the study guide, not the book. Don't get confused like me.

solid information

John Murphy is the finest technical analyst that has ever come down the pike, and this and the Technical Analysis of the Financial Markets proves it.

This is a great addition to helping my husband study the book.

John Murphy is a market technician with well deserved notoriety. The textbook, Technical Analysis of Financial Markets is excellent, the workbook is garbage. Poor questions, unclear statements and vaguely annotated charts muddle the text. The textbook covers 19 plus chapters, the workbook only goes to chapter 12. Disappointing.

Very clear concepts explanation

Complete study of analysis of Financial Markets, very informative.

didn't realize this was the study guide. got the real book and am glad I had this guide to refresh with from time to time
