Anne Arthur is a Minnesota resident and an avid traveler. She cherishes the outdoors and greatly enjoys visiting state parks and national parks across the country. She has been to every Minnesota state park and recreation area multiple times, and she hopes to visit every national park, too.

Very useful information and highlighted points at each park see what we thought were excellent at the parks we have been to.

Fantastic. A must have if u visit Minnesota State Parks.

Has lots of interesting information about the parks. An excellent resource and enjoyable reading even if you don't plan on traveling to a park soon. Read about parks I didn't even know about!

Love this book!! I use it all the time for planning hikes or camping trips.

This book is nicely laid out with attractive print, color bars and pictures and glossy paper. It also is up to date listing all the recent State Parks. However, the information provided is a bit sketchy. It gives you the basics of what to expect from each park, but it is far from detailed or comprehensive. If the basics is all you need I have no problem recommending this book.

The pages are glossy with lots of pretty pictures of each state park. It's a travel size book, so easy to pack along on a trip. It has great information as far as I can tell (I bought for a friend and haven't used it myself for travel). I'd recommend getting this for yourself or a friend.
