Customer Reviews

"Diary" does it again and produces another top quality Minecraft book that I know my nephew is absolutely going to fall in love with. I really liked the big twist near the ending on this one. I don't want to say more than that to keep from revealing the story. I love how "Diary" throws in game mechanics in the book as part of the storyline. Everything flows nicely and ties together very well. If you ever have trouble getting your kids to read because all they want to do is play video games, then this is the book you need. From a kids point of view though if you can't get your parents off

your back about wanting you to read and you want something fun and exciting like your game then this is it. If they don't believe this is a real book then tell them to sit down and read it and I know they will be pleasantly surprised because this is a high quality book.

Not exactly scholarly writing, but the books are cute, and my son loves them.

My favourite part was when the endermen sang. It was awesome. It was killer. If you like endermen I recommend that you should get this book.

I chose this rating because the book had such GOOD characters in it. My favorite part was when Phil and Zach came and said "we really were not going to leave without you Eli". (There was no part that I didn't like about it) (I love it) if I had to tell someone about this book I would tell my best friend Victoria. Letter to author. Dear author, I really liked your book. I hope you make more of them. I love the enthusiasm and all the good character. My favorite character was Phil. I bet being an author is very fun. Someday I hope I write a book! I'm gonna write about Minecraft too! Please answer back! P.S. my name is Sydney

A action packed novel of an adventure of a wimpy minecraft enderman! This book may be a bit expensive but these books are great so it is definitely worth getting it and spending the time to read it! I would recommend this book to children ages 6 - 12. Ages over 12 would be happy to enjoy a short minecraft story. The author "Diary does a amazing job on writing books and editing them carefully so there are no typos or other things. Other books are full of typos which makes the book extremely confusing. You may think this book is a scam. That's what I thought when I first saw this book. Turns out, this book is NOT a scam. Plot was nice and strong to keep the readers reading. Find out what could happen in an enderman's life! Get your copy of this book today!

I feel so sad that this book ended, but I can't wait until I read the next book!!!!!!!!!!!! I recommend this book to all minecraft lovers!!!!!!

I did really like this book. Glad to have reviewed the book for its free copy. I have to say thanks to Mr. Brian for the great read. Minecraft is a really intriguing game and in turn this was a very fascinating book. I will definitely be keeping this around for my little brother.

I liked it, kinda short, but well written, it's a very fun book, I would probably read it again. =)
