*Runner-up Halloween Book Festival 2012 and optioned for film,Â Cure*Honorable Mention New York Book Festival 2014,Â Better Left Buried*Acquired by Thomas & Mercer,Â Fatal ReactionÂ An eclectic author, Belinda Frisch writes the fast-paced stories she likes to read. She draws on fifteen years in the healthcare industry to create realistic, complex medical thrillers, and on a lifelong love of all things horror for the rest. When she isn't watching scary movies, reading, PS4 gaming, or penning her next novel, she's enjoying time with her husband and a mixed pack of herding dogs who might be her biggest fans.

This book is not geared for anyone who is in hospital facility billing; no reference to the UB form at all. If you work in physician office billing this might work for you. While we are all on the cusp of ICD 10 going into place, this edition of this book still references ICD 9. Within 1 month it will be outdated information. If anyone is familiar with any books that discuss Medicare billing and coding for hospitals, I would be very interested to know what it is called.

What an excellent book. I just love it. I would recommend this book to anyone who want to know more about billing medicare.

I use this book to reinforce learned concepts, and to be ready for the certification exam with AAPC and AHIMA. Very hepful, and through with detail escenarios. Many helpful hints and Tips. I recomend it.
