You Were Stabbed Where?: Real Stories From A Small-Town ER

Synopsis

The ER never closes, meaning the stories never end! The Real Stories from a Small-Town ER series is back with a condensed book of wild stories about patients doing the unimaginable. Since the last two books were published, patients have taken crazy to a new level, including bringing weapons into the ER and making Facebook's 'Trending News' section. Written by a registration clerk, these are true stories from the first person to see the patients at this small-town hospital in Ohio.

Customer Reviews

Anecdotes concerning Emergency Dept. patients and their various problems, from the view of the registration desk. Entertaining, amusing. I read once and passed it on to a friend, and I assume it will be going the rounds. Not a long read.

the e-book You Were Stabbed Where?: Real Stories from a Small-Town ER is the third book that I have read from the author Kerry Hamm. I obviously enjoy her books if I keep reading them. I would recommend that the author re-edit parts of the book because either words are left out of a sentence

here or there or she possibly dropped sentences in a couple of the stories. Her stories are entertaining, some are sad and or stupid. I intend to read the other three of her books that I've collected. She's a good writer and her stories are insightful.

Another in a series of books from our favorite ER registration lady. Yes not the docs not the nurses the ER registration lady and not some hot shot trauma center. This is a book for you if you want the drama not the trauma. All the nuts, self absorbed people, and crazy situations that go on in this small town ER make Bellevue look tame or maybe Bellvue's registration lady needs to write a book. Highly recommend and you don't need to start from Book one as the Author smartly catches you up.

Quick read

Kerry, please don't let criticism of little bits that are off, like spelling or punctuation, cause you any consternation. I am far more interested in the stories, funny and sad, and certainly did not expect literary fiction, a la Toni Morrison, when I downloaded this and others of your works. I truly enjoy them. As they say, thanks for sharing.

Kerry really captures humanity and craziness in her stories. Some are so bizarre you'd think they were made up, but they're all true and funny!

Read and learn. So many take aways from these stories it is hard to know where to start. Excellent writing as always.

It is a fast read and is amusing. It made me smile from time to time and that is what we need at the end of the day.
