Causation And Free Will

Synopsis

Carolina Sartorio argues that only the actual causes of our behaviour matter to our freedom. Although this simple view of freedom clashes with most theories of responsibility, including the most prominent 'actual sequence' theories currently on offer, Sartorio argues for its truth. The key, she claims, lies in a correct understanding of the role played by causation in a view of that kind. Causation has some important features that make it a responsibility-grounding relation, and this contributes to the success of the view. Also, when agents act freely, the actual causes are richer than they appear to be at first sight; in particular, they reflect the agents' sensitivity to reasons, where this includes both the existence of actual reasons and the absence of other (counterfactual) reasons. So acting freely requires more causes and quite complex causes, as opposed to fewer causes and simpler causes, and is compatible with those causes being deterministic. The book connects two different debates, the one on causation and the one on the problem of free will, in new and illuminating ways.

Book Information

Hardcover: 208 pages

Publisher: Oxford University Press; 1 edition (May 3, 2016)

Language: English

ISBN-10: 0198746792

ISBN-13: 978-0198746799

Product Dimensions: 8.6 x 0.6 x 5.6 inches

Shipping Weight: 12.6 ounces (View shipping rates and policies)

Customer Reviews

"Carolina Sartorio has produced a rich and stimulating set of reflections on the intersection of the metaphysics of free will and causation..." -- Notre Dame Philosophical Reviews Online

Carolina Sartorio, University of Arizona
Carolina Sartorio received her BA in Philosophy from the University of Buenos Aires, Argentina, in 1996, and her PhD in Philosophy from the Massachusetts

Institute of Technology in 2003. She is currently Associate Professor of Philosophy at the University of Arizona. Her research focuses on causation, moral responsibility, agency, free will, and other issues at the intersection of metaphysics and moral theory.
