Theory Of Knowledge: Course Companion- IB Diploma Program

Synopsis

Developed in collaboration with the International Baccalaureate Organization, Oxford's Course Companions provide extra support for students taking IB Diploma Program courses. They present a whole-course approach with a wide range of resources, and encourage a deep understanding of each subject by making connections to wider issues and providing opportunities for critical thinking. This companion stimulates students to think about learning and knowledge from their own and from others' perspectives in a way that crosses disciplines and cultures. It encourages reflection, discussion, critical thinking, and awareness of the ways in which knowledge is constructed, and will students to recognize the implications of knowledge for issues of global concern.

Book Information

Paperback: 306 pages

Publisher: Oxford University Press; 1 edition (August 20, 2007)

Customer Reviews

This is a terrific series; I hope more are forthcoming. My TOK students LOVE the TOK course book. Carolyn Henly, IB Coordinator, Meadowbrook High School, USA I like the way it is presented with loads of activities and advice. It's a very student friendly text. Sheta Saha, IB Coordinator, Chatsworth International School, Singapore The Oxford IB course books are the best ever resource for both teachers and students. They are practical, insightful and fully in line with the IB Course outcomes. Pat Hanson, IB Coordinator, Academy of the Holy Cross, USA All of the Oxford IB course books are terrific. Carolyn Hawkins, IB Coordinator, Cookeville High School, USA

Eileen Dombrowski, Lena Rotenberg, and Mimi Bick are well-respected in their field.

My daughter needed it for her class as a junior at an IB school and this was the best price we could find for it anywhere.

My daughter requested this book to help her in her new assignment teaching the IB class and has found it to be helpful.

The first few chapters are on specific topics, although the first couple introduce the background very well. My favourite part is the last section: essay & presentation help. The criteria are explained so well! I love it.
