Streetwise East Hampton Map - Laminated City Street Map Of East Hampton, New York (Streetwise (Streetwise Maps))

Synopsis

Streetwise East Hampton Map - Laminated City Street Map of East Hampton, New York - Folding pocket size travel map with integrated LIRR tracks & Jitney stops This map covers the following areas: Main East Hampton Map 1:36,000 Montauk Map 1:36,000 East Hampton embodies rural glamour. Where else can you find TiffanyTMs and a farm stand within 2 miles of each other? Bicycles share the road with Bentleys, and vintage pickup trucks are admired as much for their status as their practicality. Much is made of the concentration of wealth and celebrities, but itTMs the natural beauty that is the real star. The wide sandy beaches are some of the most beautiful in all of America. The light, in the summer particularly, is clear and warm. Weathered shingle houses stand among the dunes and tree lined lanes. This area used to be known as a collection of potato farms and artist's studios. Now, new houses dot the fields instead of potato plants in almost equal numbers. The original artists who made the area famous as a creative haven have been replaced by a younger generation who also cherish the light and beauty inherited from Mother Nature. Getting around the township of East Hampton can be challenging. Winding roads, new growth and snarling traffic during the season can combine to create a navigational nightmare, unless youTMre equipped with the STREETWISE[®] East Hampton Map. Known as the map of the Hamptons, the STREETWISE[®] East Hampton Map covers everything from Wainscott to Montauk. Hotels, restaurants, shopping areas, parking, parks, cemeteries, beaches, and places of interest are all marked on the map and listed in the index. Sag Harbor, officially half in East Hampton and half in Southampton Townships, and North Haven are also depicted on the map. If you want to get around East Hampton, Amagansett, Sag Harbor or any other locality in the eastern tip of Long Island New York, this is the one and only map for you. Our pocket size map of East Hampton is laminated for durability and accordion folding for effortless use. 'Don't leave home without STREETWISE.' --The New York Times 'STREETWISE is an absolute travel essential.' --Travel + Leisure Magazine

STREETWISE® is the first map to be designed with modern graphics and is the originator of the laminated, accordion-fold map format. We've set the standard that every map company has imitated but never duplicated. Our mission is to make you feel comfortable, to make you feel safe in a place where you've never been before and to enable you to experience a familiar place more fully. The company was founded in 1984 by Michael Brown, who had been in international publishing for many years, setting up subsidiaries for textbook publishers. In the 1970s, Brown traveled extensively throughout Africa, India, the Middle East and Southeast Asia. Brown would take a large paper map, cut out the city center, folded it up and slip it into his pocket, thus preventing him from looking like a tourist in areas where discretion is the better part of travel. This was his tool for surviving. After many years on the road, Brown settled back in New York and decided to start his own business, based on the adaptations he had made to maps in his travels. His goal was to give someone the ability to navigate easily in unfamiliar terrain. He started with a new map format: the accordion fold. Such a simple idea, but at the time it was revolutionary. No more struggling to fold an awkward, oversized paper map. This new format would enable the user to blend in like a native, instead of stick out like a tourist. Brown then added lamination to ensure that the map would be a lasting tool. More important than the format was the design of the map itself. It had to be a map that not only succeeded above and beyond any map he had used, but was esthetically appealing as well. The look of it had to be as striking as the functionality. Color was introduced in a way that was never seen before in a map - vivid purple for water, soothing gray for the background of street grids, gold to highlight elements of the map. Clarity, conciseness and convenience in a very stylish

package. Building the business was a 24 hour job. Brown sold the maps during the day, zipping around Manhattan making deliveries on his Harley Davidson. At night he packed the orders and did the design work. More titles were added, each title requiring months of research and design. Today, STREETWISE® produces over 130 titles for major destinations, regions and countries throughout the United States, Canada, Mexico, Australia, Europe, the United Kingdom and Asia. We have grown from the back of a motorcycle to selling millions of maps around the world. Yet each title is still painstakingly researched and updated. STREETWISE® is one of the only, if not THE only map company that conducts research by walking or driving an area to ensure accuracy. After all, what good is the map if what you hold in your hands doesn't match what you see on the street sign? This lengthy fact checking results in superior accuracy; in effect, we've done the work, now you have the adventure. In the end, it's not about the map, it's about getting out and finding your own authentic experience wherever you go. It's about being in a city or a region and discovering things that you never thought you would find. You can do this if you have confidence and you have confidence if you have a great map. STREETWISE® is the great map that you need.

We have several of these maps and love them! They are small enough to fit in glove box, sturdy enough not to get damaged if wet or anything and detailed enough that it makes finding things quick and easy!

Excellent map series. Easy to find streets, great surface wipes clean and probably good with washable markers, waterproof and folds up nicely everytime. I would definitely buy again.
