## Customer Reviews

This is a gift to my friend. She has heard of lots about Atkins diet and has been doing some research on her own from the internet. I gave her the book and she has been reading it almost non stop since then. She likes my gift very much. She didn't know that the concept and reasoning behind this Atkins diet is in depth. She said this book really gave her a boost on her diet plan.

Full of recipes although some involve many seasonings not common to most households. Small enough to carry around.

Is a useful book that teaches you what to eat every day and how to make low calorie foods

I am trying to lose some weight, gain more energy and eat healthy. one of my trainer told me lose weight is 70 % depend on what you eat so I bought this book. Atkins diet list plenty of the food menus and they looks healthy to me. This book is the good book for people who want to eat healthy.

I love this book! I have tried the Atkins diet before many years ago but struggled to stick with it. With this book the whole process was easier, there was extra tips for succeeding and really useful explanations as well as lots of options and suggestions of what to eat. I recommend this book for anyone who wishes to live a healthy lifestyle and is quite a beginning cook like myself to get this book.

I recommend this book to everyone interested in ketogenic diet or losing weight, or both. It's easy to understand, provides lots of tips and knowledge. I'm living the keto life for a while now and it really works!

This book might not really professional delicious recipe, but it is really good suggestion for the people try to lose fat

Please read the back of the book. That was enough for me to run the other way
