I'm in my mid-50's attending college for the first time. My Comp I instructor recommended this book and it's been a life-saver. I love all the different categories and considerations. It makes for a quick, simple and reliable reference. I keep it next to me whenever I'm doing homework of any type. I use Post-It self-stick tabs to write on for quick references.

It is too expensive. I had to buy it for my college class, but the price was ridiculous. A little paper back book with a spiral spine was almost \$40. Don't get me wrong, the book is great because it tells

you everything you need to know about English and MLA, i just like to find a deal.

Was very helpful for the course. I even kept it for subsequent courses. Definitely a better price than what my college is selling it at.

Didn't need for son's college class after all so returned no problem, thanks.

Did not come with course codes which were necessary for my class, the reason for buying it. Information available for free @ Perdue owl

Easy install. Adjusting is necessary before tightening it all up. Plastic but should be ok for the price.

Great tool. Good book to have as a reference. If you are in college or looking into improving your writing.

I liked it because it has a lot of useful information for me to look up on the spot. In college it more than used because you don't want to get into trouble for not citing someone. You could get expelled from school or something. Which teacher always tell you so you have to have the proof, so this book helps with that along with other useful information.
