Introductory Accounting, Finance And Auditing For Lawyers (Coursebook)

Synopsis

This book, now in its sixth edition and adopted at 80 schools in its 15-year history, presents accounting, finance and auditing using clear narrative with extensive illustrations. Written by a leading scholar of law and accounting, it balances accessibility with rigor. Pedagogical features that make this book easy to use include a coherent layout, complete set of PowerPoint slides, comprehensive Problems and Solutions, intriguing Conceptual Questions and International Comparisons plus a glossary, bibliography, index and Teacher's Manual. It can be used as the primary book for a one-, two- or three-credit accounting course or to supplement business associations, corporations or corporate finance courses.

Customer Reviews

The book was pretty "worn-in" once I got it. It's paperback (which is fine) but the cover had been folded and the binding is pretty flimsy (I'm guessing from being opened and closed by so many students). I would say the book has been "loved" but it's accounting....it's more like it's "endured" this whole time. Came with the answers inside though! That was pretty sweet.

a great book for anyone without any accounting or financial background

will use it.

I love this book
