Chance Encounter: A MM MPREG Romance

Synopsis

Braiden and Trey once shared a burning passion for each other when they were younger. Because their fathers were bitter rivals, they had to keep their relationship a secret. Upon turning 18, Braiden wanted to take their relationship public and declare their love for each other to their families. Trey, however, was not ready for this and this led to a huge fight and them breaking up. Fast forward 20 years and neither have seen each other since that fateful evening, until they run into each other at a local diner. Braiden is newly back in town after retiring from the Army and is now going to take over his father's construction business. Trey is now the owner of the same local diner. Upon seeing each other the mutual attraction is instantaneous, but neither is sure how the other now feels. They are both rather hesitant in their first interaction. Trey is apologetic for not being strong enough to stand up to their families when they were younger, and Braiden is understandably hesitant about beginning a new relationship and possibly being hurt again. When they tell Braiden's father, he goes ballistic and the source regarding the longstanding animosity between the two men is finally revealed. This is a secret so big that it could potentially tear Braiden & Trey's relationship apart.

Customer Reviews

I read this book because I love mpreg stories and though it took awhile it finally became one. I read this story initially in return for an honest review, but I ended up purchasing it. I enjoyed it so much I wanted to support and encourage the author. This is a second chance story. But it takes place in the Omegaverse where Alphas and Omegas are Human, though sometimes they have some enhanced abilities like eventing and the ability of a man to carry a baby. Gay marriage is accepted as a normal part of society. Therefore the author had to find a source of conflict. In this book it turned out to be a very bitter family rivalry. The fathers of the young men the story starts off with hate each other and they expect their children not to have anything to do with each other. Despite this severe edict the two sons carry on a secret passionate relationship for two years while in high school. It ends suddenly and bitterly when one of them wants to inform their respective families & have an open relationship. No Way!! Fast forward twenty years later when one of the men returns home for the first time to take over his fathers business. In their "town" he quickly learns that the animosity between the two families is stronger than ever. Seeing his former lover evokes a lot of memories and emotions that he'd finally gotten over after a long while. He learned not to trust easily and be reserve even with those he'd been closest with because of how badly that first very important relationship ended. The continued patriarchal warfare was an excellent excuse to stay away from his former love. But he never counted on the determination, stubbornness, and not taking "No" for an answer attitude of his Ex. His Ex made it his goal to recapture the Love Lost - that he had foolishly allowed to slip away. Despite the two of them being mature, nearly forty year old adults, they continued to live at home out of convenience. This made his Ex's plan to woo him back even harder. Previously the two of them were in high school together and it made planning & getting together a lot easier. Now they had to attempt to keep their seeing one another not only secret from just their family, but coworkers and acquaintances as well, because they did not want word getting back to their fathers. His Ex's secret weapon of an old fashioned courtship began to slowly penetrate the shield of ice that had encased his heart. His Ex's creativity, his sweetness, his focus on his mission showed he had grown up and that he was a man who meant to make up for all the mistakes & hurt he'd caused. Forgiveness had not been in his plans when he returned home after his long hiatus, but neither had falling back in love. I really enjoyed this book. I found myself rooting for the Heartbroken Ex and his carefully crafted plan to win back his One True Love. The one that he had

let get away. If you enjoy second chance, mpreg, family conflict, pushy supportive best friends, and a love that stands the test of , then you ought to enjoy CHANCE ENCOUNTER.

OK WTH? Male pregnancy? Really? Most of the story I really liked. But the preppers part was a real turn off for me...

Kindle unlimited review- This book started out really well but then the middle made me feel like I was in high school and the end was so super cheesy that I needed a paper towel to mop up the grease from all the cheese . You have two fortyish-year-old man who dated in high school they kept the relationship a secret from their parents because of some family feud or family rivalry. One of the boys wanted to come out to the parents the other one did not due to this family feud rivalry . So they broke up . Fast forward 20 years, they meet back up their both living with their parents and decided to start dating again. They decide to still keep their dating a secret... If you're looking for mpreg I think this has 5 pages in the whole book...Frustrating.

Braiden and Trey keeping their high school relationship a secret, as they turn 18, Braiden believes it is time to declare their love for each other to their families. Trey is not keen on this, as their families have a long standing rivalry. Having a huge fight and them breaking up Move ahead 20 years, the attraction still has a hold on them. Braiden just returning back into town after serving and retiring from the Army, to take over his father's construction business. Trey, the owner of the same local diner in town. They decide to take another chance and this time tell Braiden's father who goes crazy and the animosity between the families is revealed. With this new information tear them apart yet again.

it's one thing to be gay and hide that fact from your homophobic father, it's another to be gay and in love with your father rival's son. Braiden and Trey are in love with each other but they could never go public with their relationship. Braiden got tired of hiding their relationship but Trey isn't ready and this leads to the end of their love. 20 years later Trey is still in love with Braiden and would do anything to get him back. together they rekindle their teenage romance and have the family they always wanted."I voluntarily reviewed an Advance Reader Copy of this book."

I loved this book, it was a very quick read that took me for a ride I didn't want to end!Who knew after twenty years that a young love between Braiden & Trey that ended badly could of survived for so

long. Seeing one another after so long shook them both but did they still want to find out if the love & passion was still there? Would their families feud try to tear them apart again??If you want a book with a great storyline and an interesting take on m/m pregnancy then this is it!! received an ARC in exchange for an honest review!

Feuding families the secret relationship that abruptly ended when the mc were barely out of high school now twenty years later can they find love again ? This is a non shifter non omegaverse mpreg new author that shows promise just needs to tighten up the story maybe a little background on how the pregnancy can happen.

I voluntarily reviewed an advanced reader copy of this book for my honest opinions of which I am under no obligation to do so. I thoroughly enjoyed this storyline, it had conflict, a mystery and romance, different because the mc's weren't shifters so my only criticism is that Chris didn't explain how, without spoiling anything, how one of the characters got pregnant. Braiden and Trey were charismatic, passionately explosive and utterly wonderful. I can honestly say I recommend this book.
