Customer Reviews

It appears that the publisher simply captured some maps from Google or something like Streets & Trips. You could do just as well with any free tourist map.

Sorry that "zero" stars is not an option. This book of "maps" is worthless. The images are tiny and washed out. It took me exactly one minute to request a refund. Don't waste your time or money.

In my opinion, it is total junk: cheap paper and useless maps that look like they were printed using a laser printer.
