ok

One of the best yet especially in product and fast shipping. I really loved the quick responses via email as well.

I originally received a copy because a profession I founded is profiled, and I wanted to read what Sandra Gurvis had written. What I found, on top of fabulous information about Virtual Assistance, was a book that's well-written, and that covers a multitude of careers for people who are ready to do work that really allows them to shine and be authentic. If you're looking for what's next for you, consider getting a copy of this book -- you won't be sorry!
