Customer Reviews

Even though I figured out who the killer was this book still kept me entertained to the end. I really loved this series. Tom Selleck would be so great if this makes a series

Read book 3 before I read this book.. It was a good read and get history on the characters in book three.

Great read. Characters are well developed and likable.

The series is one of the few I have enjoyed enough to follow. Twist and turns and always a surprise ending! Great read!

Awesome

From the minute I started reading this book, I could not put it down! Filled with twists and turns that keeps you wanting more until you find you are at the end of the book.....and you still want more. Absolutely loved it!

Bought it immediately after finishing the first book. Great story and well written. It was hard to put it down. Love to find suspense novels that don't have profanity.

Another great romantic suspense - but light on the romance until near the end. You can see why, as there is more time spent on the mystery. Loved the book, but think the first one was a little bit better. Still, they work well together. And, yes, they could have been edited better, but still enjoyed the book
