Forget Me Always (Lovely Vicious Book 2)

Synopsis

Now a New York Times bestseller! It's been three years, twenty-five weeks, and five days since Isis Blake fell in love, and if she has it her way, it'll stretch into infinity. Since then, she's punched Jack Hunter—her nemesis-turned-maybe-something-more—in the face, survived a brutal attack by her mom's abusive ex thanks to Jack's heroics, and then promptly forgotten all about him. The one bright spot for Isis is Sophia, the ephemeral girl who shares Isis's hospital stay as well as a murky past with Jack. But as Isis's memories return, she finds it harder and harder to resist what she felt for Jack, and Jack finds it impossible to stay away from the only girl who's ever melted the ice around his heart. As the dark secrets surrounding Sophia emerge, Isis realizes Jack isn't who she thought he was. He's dangerous. But when Isis starts receiving terrifying emails from an anonymous source, that danger might be the only thing protecting her from something far more threatening. Her past. Love Me Never Forget Me Always Remember Me Forever

Customer Reviews

It's hard to judge when you read books back to back but I'm almost positive I like this book better than the first. Not because its better in some way, but because we see more of the inner workings of Isis. We learn more about her past as well as Jack's past. Things were heavily hinted in the first book what he did but no one ever goes right out and says it. We also get more hints at Nameless. It's clear Isis isn't over what happened but everyday she's making it a little bit further from the darkness that surrounded her when she first moved to Ohio. Isis and Jack may never be the same after she forgot him. He's receded so far into himself that a giant glacier blacks him from the population. Isis wants nothing to do with him and Knife Guy is giving her a piece of his mind regarding the whole situation. This books ending was done far better than Love Me Never and although my heart cried out for everyone I could see the necessity in what was done. Somethings going to have to give. The question is, will it be worth it in the end?

What this author seems to do really well is have many threads throughout the plot all at once, pulling your attention to multiple threads at different times. We learn more about the mystery and the different players. I do find it frustrating that every time there is some traction between Isis and Jack the rug seems to be pulled out from under them. I'm not a masochist by nature so I'm hoping they figure this out and learn how to trust each other moving forward otherwise this series will just become painful to read. They make some nice strides in this book though. Again, this book kept me interested from the first page to the last. I will definitely be getting the next book.

from pagetrotter.blogspot.com This review will contain spoilers for those of you who haven't read lovely vicious! Just a heads up peeps! Also...I'm highly caffeinated so I apologize for the rambling! Ok so savage delight picks up right where we left off in LV. Isis is still in the hospital recovering from her head trauma and she has befriended Sophia who is Fifty shades of cray cray. I guess I should be fair here. Everyone is going off on Sophia about how crazy she is, but wouldn't you be? I mean what we found out in LV was seriously the tip of the iceberg. You'll find out some bomb.coms in this one fo sho. Juuuust wait. All in all, yes she's a little looney tunes and manipulative, but if I feel anything for her its just profound sadness and empathy for her pain and loss. Now what's going to get under a lot of people skins, more so than the Sophia arc, is where we go with Jack and Isis. Y'all its basically right back to the beginning for them and it suuuuuucks because Jack still remembers everything and his previously cold, dead heart remembers what its like to feel something and we the readers are all "ermahgerd all the feeeeels!" It's pretty dark

throughout the novel. And if there are any Bronte fans, there are some HEAVY allusions to Jane Eyre. Or at least Nadia and I saw them. Like for real. I'm pretty sure if you read Jane Eyre, I just spoiler alerted something, but you know what, my well read Trotters? I'm sorry, still read it! Isis is still amazing. Her character doesn't grow in SD as much as her history is revealed. That's right, Trotter Lotter Potter Totters!!! We get a slight (because Isis is more closed off than Fort Knox) glimpse of what happened with Nameless. Let's just say that running from your past doesn't mean you've dealt with your issues, it only temporarily puts distance between you until it can catch up. But it will always catch up. I was very pleased with book 2. Of course I could have used more Jack and Isis action because who couldn't? There is a cliffhanger and this one is a thousand times more of a zinger than book 1's. I'm warning you! If you are a cliffhanger hater, try to hold off reading this as long as possible. Wait until you get closer to book 3's pub date because this book rocks and it deserves awesome ratings and shouldn't get penalized for its ending. Yes, cliffhangers universally SUCK, but what is she going to do? Sell us a 900 pg book? Come onnnnn. Titillation can be fun. Just imagine Jack titillating you and then go have yourself forty rereads! We'll commiserate together :) Fully recommended. Go read and be happy...and TITillated. *Cheeeeky**ARC provided in exchange for honest review!*

Forget me Always is the second book in the Lovely Vicious trilogy. It picks up where book one left off with Isis in the hospital after Leo attacked Isis and her mother. This is a brilliantly written book by Sara Wolf. The witty dialogue and angst-filled romance continues from the first book. Isis is one of the best lead females in any book, any genre. Her never-ceasing, unique thinking mind and smart mouth are addictive. Her tangents make this book worthy of a read all by themselves. With Isis's selective amnesia concerning Jack any progress the two made in book one is halted. My heart went out to Jack. He had just started feeling again, only to have Isis's memories of him disappear and the Ice Prince resurface carrying an overwhelming amount of guilt. I read each page with the hope that her memory would resurface. I need her fixed, so that she can help mend Jack. Sophia plays more of a main role in this story and the big mystery is revealed. Several aspects of the plot were easy to guess, but there were a few surprises. Sophia should be more of a sympathetic figure. Her story is tragic on many levels, but I found myself rooting against her (even hoping the surgery would be unsuccessful) so that she would stop interfering with Jack and Isis. Not sure if that's intentional or unavoidable writing or if I am just terrible. New and old dangers surface elevating the overall tension. The characters are deeply complex in this book making them so compelling. Jack and Isis above all others, but Sophia, Wren, and the other side characters are fully developed and flawed as

well. The story progressed nicely and was completely entertaining. The ending was not a surprise, but was painful nonetheless. With the emotions of the characters, relationships in the balance, and several loose ends, I can't wait to read the final book. I desperately want Jack and Isis to find their HEA, but with these two I'm not sure it will happen. Between outside influences and the way they sabotage their own happiness, it may not be possible. War might be the best we get from these two, but it's obvious that they are meant to be. He makes her feel safe, she makes him loosen up; they make each other feel more alive. Please, can I get a HEA!
