# Japanese For Dummies

## Synopsis

Japanese is a wonderful language, very different from European languages. It is also the gateway to the rich culture of the exciting and complex island nation of Japan. Some people get intimidated by the prospect of speaking Japanese—worried that it’s just too complex and different—but these fears are unfounded. While you can devote a lifetime to the study of this or any language, picking up the basics of Japanese doesn’t require any more than an interest and a willingness to try something new. *Japanese For Dummies* has everything you need to get off the ground with speaking the language. Author and Professor of Japanese Eriko Sato starts you off with the essentials of grammar and pronunciation, giving you a working sense of the language, before showing you Japanese in action. You’ll then explore vocabulary and expressions through dialogues taking place in situations such as: Introductions and greetings Eating and drinking Shopping Exploring the town Talking on the telephone Asking directions Getting around Staying at a hotel You’ll also discover social customs, formalities, and manners, from how and when to bow to how to unwrap a present. Whether you simply want to introduce yourself to the Japanese language, say a few words to a neighbor or coworker, or you’re planning a major trip or study abroad in Japan, *Japanese For Dummies* will enable you to get the basics fast and work towards your own goal at your own pace. You’ll also find out about: How to use karaoke to help you learn Japanese Movies that will introduce you to Japanese culture and language Learning Japanese the “gourmet” way When ignoring “no, thank you” shows good manners Proper table manners Proper body language How to sound fluent And much more! With helpful vocabulary summaries, a mini-dictionary at the end, and an audio CD full of conversations and pronunciations, *Japanese For Dummies* assumes no prior knowledge of Japanese on your part—providing the perfect guide for a quick-but-thorough, lighthearted-but-not-lightweight introduction to the language.

## Book Information

Audible Audio Edition

Listening Length: 3 hours

Program Type: Audiobook

Version: Unabridged

Publisher: Wiley Publishing, Inc.

Audible.com Release Date: March 27, 2008

Language: English

ASIN: B0016P8BC2

Best Sellers Rank: #7 in Books > Audible Audiobooks > Language Instruction > Japanese #498 in Books > Audible Audiobooks > Nonfiction > Reference #39695 in Books > Reference

## Customer Reviews

My daughter uses this to help her learn Japanese along with other tools.

not as helpful as I hoped

International delivery was quick and earlier than expected. The book provided lessons that are very easy to grasp and indeed fit for beginners - perfect really.

Great book for learning Japanese for me. Easy to use.

This was a fine place to start if you know absolutely nothing. It covers the most basic elements of the language: hiragana, katakana, a few particles and a handful of important phrases. It was a good place to start but if you're committed, you could probably find this information in the beginning of a more in-depth

book. This book was good, but it was basic.

I bought this for my son who's in the Navy and was being shipped to Japan. He's been there for a few months now and has read through the book so I'll pass along his review. He said it has helped some but mostly just with the cultural mannerisms and customs. The language part he said didn't help much except for maybe ordering food at a restaurant. So that is his review. I never read the book but I will say it arrived in a timely manner and was in very good condition.

This book offers a lot of good advice and a lot of words to remember. It also offers a some good things that some other books don't talk about. It's not quite 100% my method on learning the language, but I can still follow it. The only downside I can think of for this book is that it has absolutely no Hiragana, Katakana, or Kanji; It is all Romaji, which I think is a vital missing link.

Very nice starter
