The Secret

Synopsis

The Secret contains wisdom from modern-day teachers -- men and women who have used it to achieve health, wealth, and happiness. By applying the knowledge of The Secret, they bring to light compelling stories of eradicating disease, acquiring massive wealth, overcoming obstacles, and achieving what many would regard as impossible. --This text refers to an out of print or unavailable edition of this title.

#4 in Books > Religion & Spirituality > New Age & Spirituality > Mental & Spiritual Healing #7

in Books > Medical Books > Psychology > General

Customer Reviews

When I first began to read this book I honestly thought it was a crock and a waste of my time and money. I started with an expectation of what I thought the book was about and the style of writing that I should expect. When I initially disagreed with one of the authors viewpoint with in the book and scrutinized another's personal life through research I was almost stop reading, but I decided to continue reading anyway. I made a wise decision to. I had heard about the law of attraction before, but never took the time to investigate what it truly meant. As the book unraveled and began to reveal "The Secret," and how to apply it into my life immediately, I allowed myself to be open in receiving whatever insight I could in order to help me overcome several difficulties in my life and achieve a better quality of life overall. By the middle of the book I chose to practice some of the techniques that were briefly described through the text just to try it out. For the past 3 weeks I have had pain in the middle of my back. I had even recently gone to a chiropractor to help alleviate my symptoms, which only worked temporarily. The moment I tried the technique of closing my eyes,

clearly my mind, and speaking affirmations of confidence and healing something changed. I did not realize the pain in the middle of my pain, which I had been experiencing for weeks, was gone until about 5-10 minutes later when I stopped to stretch. I am not a blogger, I do not receive free books, or any type of compensation for this or any review I ever write. I also am usually one to dispel instant claims of miraculous effects occurring just from reading a text or saying a chant, so when I tell you my pain left and has not been back since I am shocked in a way. I still am secretly wondering when the pain will reappear, but by the continuation of applying the law I highly doubt it will. From that moment I figured if it's that easy then I wonder what life will be like once I apply it to every area of my life. By the end of the book and my own personal testament, I was hooked. This is a life changing book and I see why it has sold millions and millions of copies around the world. It really works if you apply and believe. After previewing *The Power and The Magic*, I intend to read those two as well. This has easily become one of my all-time favorite books and I highly recommend it. Just try it. What do you have to lose?

I have read more than 200 books on the LAO and always felt there was always one more book to read. At the end of the day, they all say the same in different wordings, or from different angles. This proves there is only one LOA and it is what it is. You can't make "more" out of it, or make it "more perfect". Thousands of words have been written and in my opinion, *The Secret* is a very accurate synopsis. If I could only take one book with me, it would be *The Secret*. It gives me a "secure" feeling of "yes, this says everything there is to remember ". If I could take two, I would also take "*Friendship with God*" (Neal Walsh).

great book.

I have really enjoyed "*The Secret*". After a brain injury I'm using it to try and retrain my brain.

Beutiful

This book changed my outlook on life honestly. Read it if you have an open mind. You'll be glad you did!

Great, great book. I highly recommend everyone that has an open mind to read. I gave it away today to someone that really needs to read it. I'll be honest with you, I may just buy another cooy,

just to have or perhaps to give it away again.

Great book! Makes you think about all the positive things you can control and how if it is negative to not think about it. This book has really helped me in many situations. I've actually read the book about 4 times since I got it. I always find little things I didn't pay attention to the previous times.
