Customer Reviews

Excellent quality. Arrived on time. Very happy!

Great ! Was very happy seeing book in good condition .

Great product

good

Thank you..just as described!!

Ordered this book from this seller because the seller had "in stock" in her status. I needed this book quick for a class I was taking. After 7 days, I still did not have the book and did not receive any emails regarding shipment, so I contacted seller to request progress on shipment. One day later, I receive an email stating that my order was cancelled due to the book being "out of stock". It is extremely frustrating to order a book that is really needed from a seller that has "in stock" on their page, when the claim is false. Now I have to find another seller, which means wasted time without this book in class. Highly disappointed.

This book was just what I needed to complete my CNA course and the price couldn't of been better. It was still in "like new" condition.

Ordered The Nursing Assistant book and it came quickly. I continue to review it as the one I had during school had to be returned at the end of classroom study.
