We used this map to drive around southern Spain for 2 weeks. I understood that Spain had recently

renumbered their highways so I was concerned that this map had been updated since the renumbering. This map was totally accurate as to all highway numbers. We found it to be easy to read and in sufficient detail for even single lane roads. It is not of much use in any town or city though. The area along the A7 between Malaga and Marbella is very difficult to navigate and this map will not help you at all. (And beware that Google maps are totally incorrect as to that part of Spain.)

Traveling? You need a map to plan

Good map!

Size, clarity, thoroughness... it fails on all three counts. So huge that when it's unfolded, it's larger than the compact car you might be renting; so visually confusing that it's close to impossible to discern route numbers on the major highways (or distinguish those numbers from exit numbers); and IT'S MISSING THE ENTIRE EASTERN THIRD OF ANDALUCIA! What the...?

Fully met my expectations

Superb level of detail. Up to date with even the newest roadways (which our GPS, last updated 24 months ago, didn't recognize!). Easy to read and use.

The map is overly large, very difficult to read, and there is no street index. We were trying to use it in Granada & found it too difficult to use. We ended up calling our destination & being guided in. I would not recommend this map.

This is a very large and detailed map. Almost 4' by 3' when fully opened up. This makes it tricky to use in a car. I think it would be improved if they made it smaller by printing on both sides of the paper vs. just the one side.
