David Vaala developed a keen interest in photography early, in parallel with a passion to explore. Wildlife, the natural world, and, increasingly, global cultures direct his travel and photography.

The Photographer/Author has done a wonderful job of documenting the costumes and beliefs as well as capturing the beauty of the people and land. His photography is superb...he must have spent many hours building relationships with the people and studying the land. This book definitely earns top spot on the coffee table so that everyone who visits will have an opportunity to see the photos!

David Vaala clearly worked hard and long to study this country so isolated from the world around it. The photographs are of particularly high quality, as is the production of the book itself.

Photographs of the participants of periodic religious ceremonies in their ancient regalia will be an invaluable resource for future generations. A lovely study of the landscape and people of this

fascinating and, remote country before the inevitable changes that will be rapidly wrought by the modern world around it. Royce Watts

I have travelled extensively through the Himalayan region over many years and was seeking an book of images on this small country nestled between India and Tibet. This book superbly exceeded my expectations with its breathtaking imagery and presentation of the people and the landscape. Highly recommended.
