ISBN-13: 978-1512260526

Product Dimensions: 8.5 x 0.3 x 11 inches

Shipping Weight: 12.5 ounces (View shipping rates and policies)

Average Customer Review: 4.7 out of 5 stars 149 customer reviews

Best Sellers Rank: #437 in Books (See Top 100 in Books) #1 in Books > Reference > Words, Language & Grammar > Handwriting #2 in Books > Education & Teaching > Schools & Teaching > Parent Participation

Customer Reviews

I'm a stay at home mom that also home schools. I'm always looking for ways to help teach my girls but also to save money. I purchased this workbook because it is all hand writing and tracing letters. There aren't any pages that are for coloring which I like because the coloring really bores my three year old and will make her nearly have a melt down if I try to get her to color. She craves that learning experience that coloring just doesn't give her. In an effort to save money I took all of the pages out of this work book, it doesn't have perforated edges so I had to use a paper cutter to make them nice and clean cut. I then put the pages into sheet protectors, used a sealer to close the top of the sheet protector so the pages would not fall out and put them all into a 3 ring binder. I also grabbed some wet erase markers so that she could sit and work on her hand writing skills at anytime and then instead of throwing the book away when she completed it, we could just wipe the pages clean and start again. This is perfect since she has a little sister who will be turning 2 soon and we can use this over and over again versus purchasing new work books each time.

OK, I bought this and it is great but then I discovered <http://www.worksheetfun.com> where everything is free to download. Suddenly this book for \$7 is too expensive. I would buy this book again only if I didn't have a printer at home or have no way of going to the local library to print the

free downloads.

Great for helping toddlers practice writing their letters. A suggestion tho.. take the pages out and put them inside sheet protectors inside a binder and have your kids use dry erase markers so they can reuse the pages over and over again. :)

This is a great resource to help children with learning to write the alphabet. Includes both upper case and lower case letters. Step by step instructions for lines and curves are very easy to understand and trace.

My three year old son is doing well with practicing tracing his letters in this book. Lots of pages and enough space for him to write. He likes coloring the pictures too.

A great tool to help with the sometimes difficult task of teaching a little one to write. The book keeps it fun and lessens the chance for boredom for the kids.

I highly recommend.

Love this workbook because it is repetitive and gives children more practice with writing before starting to write on a blank canvas, this book gives them more practice and rows to practice compared to other workbooks that may give you only 1 row to practice.
