Customer Reviews

Look, I've been playing Pokémon since Blue and Red, and I've played every single one of them. This set is nothing short of amazing. It is beautifully and thoughtfully put together in ways that make my inner trainer sing. Everything is of good or amazing quality. Paper products are clearly made of heavyweight materials, the pen writes like a dream and is also a good weight that accepts refills, and the amount of content is astounding. This is definitely the happiest I've been about dropping big

money on a collector's edition.

I am continually astounded by Pokemon's ability to create quality merchandise that their customers and fans love. I didn't realize how much would be included in this product, and opening it was a real treat. The box is beautiful and of sturdy quality. The book has a very nice dust jacket (with a picture on the inside) and, while it does not contain a Pokedex, it is a full walkthrough of the Sun and Moon games with lots of useful information for those who enjoy having the information in hand rather than looking it up online. As for the rest, the art cards are neat and definitely a bigger draw if you're a person who enjoys concept art and character sheets. The map is very cool, not just a big poster. The white decals are nice, not sure if they'd go well on a car window but I know they're the sort that would look stellar on a laptop case! The bookmark and passport are awesome treats straight from the game itself. My biggest joy was the notebook and pen. (I am a bit of a writing nerd with lots of journals, so keep that in mind.) The journal is as good as any high-quality leather bound journal you might find in Barnes and Noble. The PEN THOUGH. Oh my. Pardon my geeking out. The pen is beautiful, weighty and writes very well. The black body with gold accents is striking. Best of all, it takes HERO 0.7mm refills. In short, it's a pen I will use for the rest of my life (provided I don't lose it!) and it's a real treasure. Now, if you're not a person who's in love with clever, high quality merchandise and memorabilia this collection may well be too expensive. The book can be bought alone, or you can wait for the Alolan Pokedex which I imagine will contain much of the same information. But if you like to collect things, or are looking for a STELLAR gift for a Pokemon fan, I can't recommend this highly enough (especially at 's price point.)

This collection is great, the attention to detail and the quality of the materials are top notch. The pen is heavy, writes great, and looks awesome.

Very much worth the price. The journal is much better quality than I expected. The poster is made of a high quality paper. Comes with certificate of authenticity as well!

If you love Pokemon like I do, this collector item is a must have. It was very hesitant when I first saw this because I have no idea what I was getting nor can I picture from what was describe to me. When I got the item and open it I was very surprised and amazed. 1st. The box package look amazing and beautiful 2nd. The content inside is even more better, it has so many little surprised and goodies inside. I highly recommend this item to any Pokemon lovet, makes a good gift.

I knew exactly what I was getting when I decided to buy this but I got a little extra. It sat on the shelf for a little too long before I actually opened it and I was shocked to find out that I got a misprinted one. The entire book is upside down and rather than being upset about it I was kind of excited about it. Nothing in it is wrong and it's perfectly fine the pages were just put in the wrong way.

I literally cried as I opened this AMAZING collectors box! It's so beautifully put together. The pen and bamboo poster are my favorite parts. The materials in the contents of the box are so well made. Perfect addition to a super fans collection! My only complaint is the actual box itself. I kinda wish the outside box looked as stunning as the contents inside. Nice magnetic closure, not as pretty as everything else. LOVE THIS PACKAGE OVERALL!!

Bought this for my oldest child and when the others saw it they immediately wanted one for themselves! It's put together nicely and seems well made. My only complaint was the pen; it was plain black without the gold sun and moon on it like in the description (and others that have been shown by other reviewers.) I'd send it back, but I don't want to risk receiving another set with something missing or wrong with it. We'll be keeping it and hope we have better luck if we decide to order another set.
