Its a decent guide, wish it showed pictures of the guide because i wouldn't have bought it other wise. There are no pictures or anything. Just a small book with the lateral essentials of a walkthrough. So If your looking for the big flashy guide books this is not for you. But If you want a

simple and plain guide. This is the one for you.

Greetings! I am a gamer since the beginning of Nintendo, I cannot say enough how much I love this guide. First it's affordable, it's concise, no spoilers. Basically just the facts walkthrough with nicely added usable content. Using regular bookpaper with only a glossy protective cover. Well Done! showed a coworker who loves these games as well. He was equally impressed. Hopefully this helps you with your quest! Again thanks hope to see more! (oh and please don't change a thing)

Wonderful guide. Helps me navigate through the game.

Could definitely use some pictures, especially maps of item locations.

Nice straight format in writing for a simple walk through with some information. I have not read through it so do not know the full extent of knowledge and information contained within.

Good work
