Nursing Notes The Easy Way: 100+ Common Nursing Documentation And Communication Templates

Synopsis

2nd Edition of the popular book published by Nursethings! SUPER PRACTICAL because it is to the point and easy to use! Ever wonder what to put in a nursing note? Not sure what to say when giving report or calling the physician? This pocket sized guide provides you with over a hundred templates for written and verbal communication so you will never be at a loss for words. Knowing what should be documented for a given nursing situation also helps you be sure you are thorough in your care. Templates are helpful for ESL nurses who may struggle with terminology or syntax in communication.

Customer Reviews

Karen Gelety RN, MS (formerly Karen Champion) has over 25 years in nursing as a nursing instructor and bedside nurse.

It was okay... I wish it had more than just one example per complaints. Overall its a good start but i don't think its worth \$10

This little book might be few in pages, but I have referred to it many times while learning proper documentaion and nursing notes verbage.... Found it a useful addition for reference

Helpful as beginning to work in long term - extracted some here to create a draft for my clinical notes - it is recommend for beginners

Not a long book but especially if you are a new nurse, these are great examples of what hospital nursing notes should look like. Covers most common scenarios.

This is a very handy reference to help with the phrasing of notes. What information should be entered. Clean and concise

I would recommend this book for any nurse, but new grads will really benefit. I am a returning nurse and had forgotten how to communicate effectively, it's a language that I had forgotten. Very useful book. Even with computer charting, helps with the DAR notes and Clinical Notes.

The book very interesting I would recommend this book very helpful
Excited to read it to the end
thank you

Perfect guide for documentation. I work in the ER and it helped a lot in giving me information on important things to document which i might forget working in a fast-paced environment.
