Accounting Instruction: Reference #200 - Recording Transactions Using Debits & Credits

Synopsis

This audiobook covers the heart of financial accounting, the building blocks of financial accounting, and the practical skills of recording transactions needed to build financial statements and understand how financial statements are built. Although it is possible to read financial statements without a full understanding of how they are constructed, and it is possible to work in an accounting department performing accounting tasks including data entry, without fully understanding debits and credits, it is not possible to have a complete understanding of the financial statements or financial accounting without an understanding of transactions recorded using debits and credits. An understanding of how the system works is what provides an individual real value in today's marketplace, because it is understanding that is needed to fix problems and know when there are problems that need to be fixed. Financial transactions recorded using debits and credits are the foundation for advanced financial accounting topics; a better understanding of debits and credits make advanced topics much easier to absorb. The best way to learn how to record transactions using debits and credits is by doing, by working practical examples. This audiobook will provide many practical examples and will provide references to free resources offering more examples and explanations including instructional videos, games, and discussion forums. Before we jump into recording transactions, we will cover a process for thinking about debits and credits, starting with a definition of debits and credits, followed by a systematic way to think through the recording of transactions. We will consider each account type including assets, liabilities, equity, income, and expense accounts and discuss their normal balances, whether they have a debit or credit normal balance.

Book Information

Audible Audio Edition

Listening Length: 4 hours and 15 minutes

Program Type: Audiobook

Version: Unabridged

Publisher: Robert Bob Steele CPA

Audible.com Release Date: July 31, 2017

Language: English

ASIN: B0747WPS8F

Best Sellers Rank: #49 in Books > Audible Audiobooks > Business & Investing > Accounting
#759 in Books > Business & Money > Accounting > Financial

Customer Reviews

It seems a good learn by doing approach to the subject.
