Used for an online class. Good book with a lot of case studies. Easy to understand and has a lot of examples. The cases are relevant with current/popular companies. I remember a class where the case studies were so old I did not recognize some of the companies in the book. Delivery exactly as expected.

This is actually a very good book. The information is practical, relevant, and comprehensive. That said, it is about a lot of legal matters so the vocabulary is a bit exhausting to follow at times. In general the lawyer speak is broken down rather well and I've gained a great deal of knowledge from reading this.

It is a text book after all, but the author's writing style could not be improved. It's an excellent text. This text is full of familiar and up to the minute cases too to help the student relate to the legal issues.

As described, thanks

Great book

Great price. Needed this book for an MBA class. It was nearly 500.00 at my school, got it from AZPrime for 60.00 rental fee. Woot-Woot

Good book for class. Great rental prices! Hoping the return process is easy too at the end of the semester.

perfect
