There are many more legitimate reasons to be anonymous with a new name, and protected identity
Please don't waste money on some of the other books out there about creating a new identity, changing your name, etc. The author has read most of them and he will keep you legal, legitimate, and respected. Those other books are limited and usually advise you to do something illegal. It is your legal right to use any name you like but you must go about it properly as shown in this book. In this age of computers and data sharing, the processes that worked in the past DO NOT WORK TODAY. Big Brother is watching closer than ever. Regardless of your reasons for wanting a New Name, New Identity, and privacy, this book can help you to do it legally and legitimately. The process is anonymous and uses the convenience of the Internet or a phone call. You don't have to appear in person to carry out the methods presented in this book. The author used this process to start a new anonymous life.
Use this book to live anonymously yet openly with complete freedom, privacy, and without fear.

Customer Reviews

...you could start over? At first, I thought this book would be about covering your tracks (such as getting rid of troublesome social media) and not putting yourself "out there" as much and being careful about what you are using in your day-to-day life and so on. It is, but this book is also about legally creating a new identity and why you may want to consider a new identity or alternative identity. The author provides updated, sound, and well-researched advice for everything from being mindful to what your current technology is doing to you to completely disappearing. Very interesting read!

The prevalence of identity theft has done nothing but increase in the past years, and my concerns

have increased with it. I am grateful for this book, offering a clear action plan on what to do protect oneself from such an attack. There are no gimmicks to be found here - just well-written, specific steps on what can be done. Do yourself a favor and get this book before you are under attack yourself - it is more than a fair trade-off as far as value is concerned!

I've read several books on the subject but this is no contest the best. Far better than J J Luna and for half the price. Enough Said!

I'm GLAD, I spent the few dollars on this book and although I haven't read more than 30pgs.. I've gotten many useful tips pertaining to the subject of the Title of this book....

I have an ugly ex I need to vanish from my life and now I know how to do it. Thanks so much Mr. Allen ... I probably owe you my life!

Great Book! learned a lot and you will too. Even if you don't think you want to disappear, you will learn so much about protecting privacy in today's invasive world.

Good solid information - considerable out of the box type thinking - highly recommend for anyone who is tired of big brother poking their nose in your personal affairs

This is the best book for anyone who needs to disappear from a bad person or a bad situation, Highly recommended!
