FAR/AIM 2017: Federal Aviation Regulations / Aeronautical Information Manual (FAR/AIM Series)

Synopsis

Now includes the new "Remote Pilot" and "Unmanned Aircraft Systems" regulations (drones), 14 CFR Parts 48 and 107! ASA has built a reputation for providing the aviation community with the most accurate and reliable FAR/AIM products available. The 2017 FAR/AIM book continues this tradition, containing complete and up-to-date information from Titles 14 and 49 of the Code of Federal Regulations (14 and 49 CFR) pertinent to General Aviation, Sport Pilots and Flight Instructors, combined with the Aeronautical Information Manual (AIM), and a free email subscription service for you to receive updated information as it is released by the FAA. Convenient handbook-sized 6" x 9" format; see backcover copy and table of contents for more details. ASA's FAR/AIM Series has been the standard for printed reference books containing the aviation industry's regulations for more than 30 years. ASA consolidates the FAA regulations and procedures into easy-to-use reference manuals full of information pertinent to pilots, flight crew, and aviation maintenance technicians.

AMAZING READ!!! This is a riveting tale about a young pilot who claws his way through fierce regulation. His journey starts with him working his way through Part 61 and eventually gaining the skills he needs for Part 91. It describes the challenges he must face in lawyer written detail to someday reach the promised land of Part 121. Will he make it before he is crushed with financial debt or caught in the traps of regulation? Pick up the book today and find out for yourself!

The electronic version of the FAR/AIM requires an Adobe application to read, you cannot read it in iBooks (for example). An Adobe application (free) must be installed on your device (in our case Mac and iPad) to read the AIM/FAR. Makes it a bit more awkward, as I cannot organize it with other flying documents for easy access, and eats that much more memory on the device.

FAR/AIM is required for flying safely and legally. It is available on-line but I prefer to read the written page.

Very informative with plenty of graphs.

If you are a pilot then this book is a must own and must read book.

As expected

Great option! Hopefully I'll be able to use it for my upcoming IR and CPL checkride before 2017 ends.

Thanks
