DK Eyewitness Books: Ocean

Synopsis

Now in Paperback! Dive in and discover the watery world covering most of our earth and the amazing wildlife in its depths in Eyewitness: Oceans. Through images, maps and informative text learn about life on the shore to the darkest depths of the ocean floor, including predators and prey, gas and oil exploration, products of the ocean, brave explorers and what the human race can do to help preserve one of the earth's most valuable resources. For over 25 years, DK's Eyewitness books have been the most trusted nonfiction series in classrooms, libraries, and homes around the world. In summer 2014 this award-winning series will get a fresh new look both inside and out. The introduction of paperback editions, eye-catching jackets, and updated interiors ensure that the Eyewitness series will continue to be relevant in the ever-changing world of education and remain the go-to source for homework help, research projects, reluctant readers, ESL students, and, as always, to satisfy the minds of curious kids. Supports the Common Core State Standards.

Grade Level: 3 - 7

Customer Reviews

As a child I remember LOVING the DK Eyewitness series. I would sit for hours in the library reading these books. So, when I recently discovered that they still exist I had to have ALL OF THEM for my child. I started by ordering about 8 different titles. I have found that the OCEAN EYEWITNESS book

most closely resembles my childhood memories. We purchased the hardcover edition (you can choose between hard and soft cover) and the cover is textured and beautiful. However, the pictures inside are not as saturated as my memory holds. They are actually quite dull in comparison to other children's books that we own. The information and layout is what I remember it to be, large photographs and lots of little facts sprinkled throughout the photos. I still love these books, and would recommend them to anyone with children. The library binding is nice and seems like it will hold up over the years. Side note: Some of the other DK Eyewitness Books have a hole cut out in the cover to showcase a free clip art CD. This book does not have that hole, or the free clip art CD.

My grandson loves science and owns several DK Eyewitness Books. These books are beautifully illustrated and loaded with amazing information that keeps my grandson totally involved in science!

I bought it as a present for a young man that loves to read and this book was a hit! Easy to understand.

This book feels quite dated. It is a reprint of a book from the 90s and it shows. Plus, the one I received was in such bad condition it looked used. Definitely not worth buying.

Nice!!

Excellent book for resource and education. The product arrived on time and as described.

my granddaughter swims in the Pacific Ocean and enjoys the vivid pictures and information found in this book

I loved these as a kid and 25 years later I'm glad to see they're still great now that I'm buying them for my kids.
