Martin Oliver has written over two dozen books for children. This is his first graphic novel. --This text refers to an alternate Hardcover edition.

This is one of my 10 year old's favorite books! She references it frequently.She really enjoyed making some of the recipes and learning new games. She loved it so much, she picked to give it to her 12 year old cousin for her birthday. I would recommend this for all tween girls!

Received in a timely fashion, and my niece loves her her new book!

My 9 year old grand daughter looked briefly at it and did not understand the whole idea. Might just

have been her but she absolutely did not like it.

I have a niece who is 8 and I bought the boy book, for my son, and he loved it so much that I purchased this book for my niece. It is a fun book with a lot of ideas and projects. It is just the right size for her to put it in her purse to read. I love the hard back cover, and it can be a keep sake for her.

You will never run out of ideas of things to do, make, create, play, learn with your daughters, granddaughters, nieces, any and all young females. A great series of books for girls and the people who love them.

Little Harbormistress, enjoyed it, she whipped through it in an hour or two. Reread it a few weeks later in a series of evenings. Successor to several other books just like it. It's light, funny, sometimes thought provoking--best if you encourage discussion of these, because not all will agree with your rules or beliefs. Certainly, you get more out of it as will your daughter if you discuss the ideas.

Granddaughter very happy!

Thanx!
