Customer Reviews

Really, I don't think this is worth any money at all. The author should share the basic information compiled as a mere recommendation to friends. I regret having paid any money for this...

39 pages, 3 pictures. I guess it is a to the point sort of guide. I was very disappointed & thought it was very overpriced.

All info here is the same as found online. I was disappointed to find little original content. I would have liked more information, but I suppose that's what I get with such a short book.

Give you an insight of Jamaica

This book is good for people that are not looking for the all-inclusive type resort and want to travel on their own.
